Lt. Dada Chellaramji Kripalani

Jai Shivshakti Health & Educational Foundation (JSSF)

Dear Sahayogis,

We have completed one more year in the service of humanity. Our focus was towards providing education and vocational training to strengthen dependent people so they are equipped to support themselves financially for the rest of their lives. JSSF with the help of Makkala Jagriti has intervened in Government Schools in 2 clusters namely Bijjawara with 5 Government schools and Hebbal with 4 Government schools helping 2,074 students. In Anekkal taluk in association with Sansera Foundation and One Billion Literate Foundation (OBLF), JSSF engaged 21 teachers in 13 schools helping 3,812 students in their academic intervention.

In the coming year 2024-25, JSSF is looking at facilitating a project by Pipal Tree. The project involves working towards the education of 900 tribal children in 21 Government schools at HD Kote, Mysore, a most backward region. A Community Learning Center (CLC) program with a team of 20 Community Facilitators, a Field Project Coordinator and a Resource person will be formed to impart holistic learning and development.

The Board has also approved life skill development and the Training Of the Teacher (TOT) program by Lend a Hand India (LAHI). Under this program, 152 Trainers of various Government Schools teaching skill development in the automobile sector will be upgrading their skills in teaching the students with the latest technology. This would enhance the quality of training and in turn employability of these students, either to start their own small business or join the automobile industry on employment.

Let us all pray to continue having the hand of Almighty upon us to serve the deserving with full hearts that would make the world a better place to live.

J M Maheshwari
Managing Director, JSSF

SUCCESS STORIES

Girls hostel in the Purbottar Vikash Parishad

Purbottar Vikash Parishad, an NGO in Tinsukia, Assam has been quietly creating ripples towards betterment since 2010. Working to improve the living conditions of socially neglected people that are unfairly treated because of poverty and caste in Assam & north-east India are uplifted by facilitating education, vocational classes, health, and hygiene.

With intent to protect and provide for the abandoned & financially poor girl children in the nearby villages, JSSF has proposed to open a girl's hostel. Necessities and school expenses are taken care of so the girls can focus on receiving education and enjoying their childhood in a secure environment. The girls and boys staying in their respective hostels will be pursuing their education from Gyanangkush.

New centre for skill development in BGMS

In the BGMS premises, a new centre for skill development was started in association with NTTF, Bangalore. In the first batch, 23 children were provided training for a Diploma in Computer hardware and software.
