Lt. Dada Chellaramji Kripalani

Jai Shivshakti Health & Educational Foundation (JSSF)

Dear Sahayogis,

As you all know, it is great sorrow that our beloved Shri. Chellaram Ji Kripalani, whom most of us know as Dada left for his heavenly abode. His empathy and his response to the suffering souls are the fond memories and that is the way we remember our dearly Dada Ji and try to follow his footsteps. My deepest heartfelt condolences to his family members, relatives, colleagues and hundreds of lives touched through charitable activities.

A man may die, but his legacy will continue through his deeds and we are committed to carry forward the path he has laid for us. I would like to thank representatives of all the associated organisations for standing with us during the tough times. Your commitment to the society and the noble work carried out by each one of you is inspiration to us.

J M Maheshwari
Managing Director, JSSF

2	Ajmer – Sudhar Sabha	8	6
3	Jaipur – Sindhu Welfare Society	40	-
Total		**80**	**6**

JSSF's plan for FY 2023 – 24

Based on the learnings and the impact created through various programmes in the field of education and skill development, JSSF has planned the following:

1. **Expansion of skill development programme by Savitribai Phule Mahila Ekatma Samaj Mandal (SPMES):** SPMES has been working in Mukundwadi and Milindnagar, Urban pockets of Aurangabad district to provide skill development through vocational training in tailoring, electrician, cookery courses.

After the youth are trained in the above courses for last few years, there is a sign of saturation as the catchment area is limited and a very small number of trainees move to a new geographical area. After discussion with the management of SPMES, JSSF has agreed to support the training through expansion of program to Jalna district, a neighbouring district, 60 kms from Aurangabad. Basic and advance Tailoring, Electrician and Food tech courses started in Jalna and supported by JSSF while advance Tailoring and Electrician courses will continue in Indiranagar and Mukundwadi respectively.

2. **Expansion of Vocational Training Programme by St. Joseph's Skill Academy (SJSA)**

   SJSA, a unit of M/s. St. Joseph's Indian Institutions (SJII), Bangalore has been running Vocational Training Courses in its premises for the benefit of needy, underprivileged and marginalised poor students living in Bangalore Urban area to make them either employable or pursue higher studies.

   Under an Existing MOU between JSSF & SJSA, JSSF has been extending financial support to 40 such students to pursue courses of their choice at SJSA and is considering extension of such support to more number of students from 2023-24 batches.

   In addition, after finding high demand for skilled technicians in the field of Refrigeration and Airconditioning, JSSF in collaboration with SJSA is setting up a "Heating Ventilation Air Conditioning" (HVAC) Laboratory at SJSA premises with its Capital Investment so that about 20-25 students could be admitted for a Diploma Course every year with guaranteed job opportunities.

3. **Scaling up of educational program:** The model of working with the Government high school and the corresponding feeder schools (primary & higher primary) in Hebbal school has shown good progress in enabling students to develop a strong foundation and prepare for the public exams in class 10. The top three students in the class 10 are the ones who underwent intense coaching through association of Mr. Mahesha of Prajna Mathematics, Hebbal, Bengaluru.

In the FY 2023, JSSF has plans to replicate the model to Bijjawara, where the activities are already in place and in Anekal Cluster in association with Sansera Foundation.

4. **Skill development:** Among the area of operations, greater efforts for skill development will be done through NTTF and St. Joseph's Skill Academy, Bengaluru. At present, students passing out from these Institutions are getting good placement and pay scale. At NTTF, the students are provided interest free loan to pursue a three years Diploma. The students need to pay back to JSSF after they start earning. The students pursued vocational courses at St. Joseph's Community College with a scholarship from JSSF.

In the coming years, we plan to increase the numbers and also aim to increase the reach by empanelling more institutions and taking the programmes to the reach of more children.

Infrastructure development

Sl. No.	Partner Organisation	Activity type
