Lt. Dada Chellaramji Kripalani

Jai Shivshakti Health & Educational Foundation (JSSF)

Dear Sahayogis,

We have completed one more year in the service of humanity. Our focus was towards providing education and vocational training to strengthen dependent people, so that they are equipped to support themselves financially for the rest of their lives. JSSF with the help of Makkala Jagriti, an NGO has intervened in Government Schools in 2 clusters namely Bijjawara with 10 Government schools and Hebbal with 5 Government schools helping 2,269 students. In Anekal taluk, part of Bangalore rural district JSSF in association with Sansera Foundation and One Billion Literate Foundation (OBLF), has provided 22 teachers in 14 Government schools helping 3,690 students in their academic intervention.

Let us all pray for the continued blessing of Almighty upon us to serve the deserving with full hearts that would make the world a better place to live.

J M Maheshwari
Managing Director, JSSF

JSSF has its genesis long back as charity was part of the personality of Dada Chellaram Kripalani. Later it was organised through Jai ShivShakti Health and Education Foundation in Bengaluru.

Our Mission

"JSSF to form a chain of such NGOs/Trusts/social workers who are of high integrity, selfless and with full of compassion to serve the motherland and its neglected people."

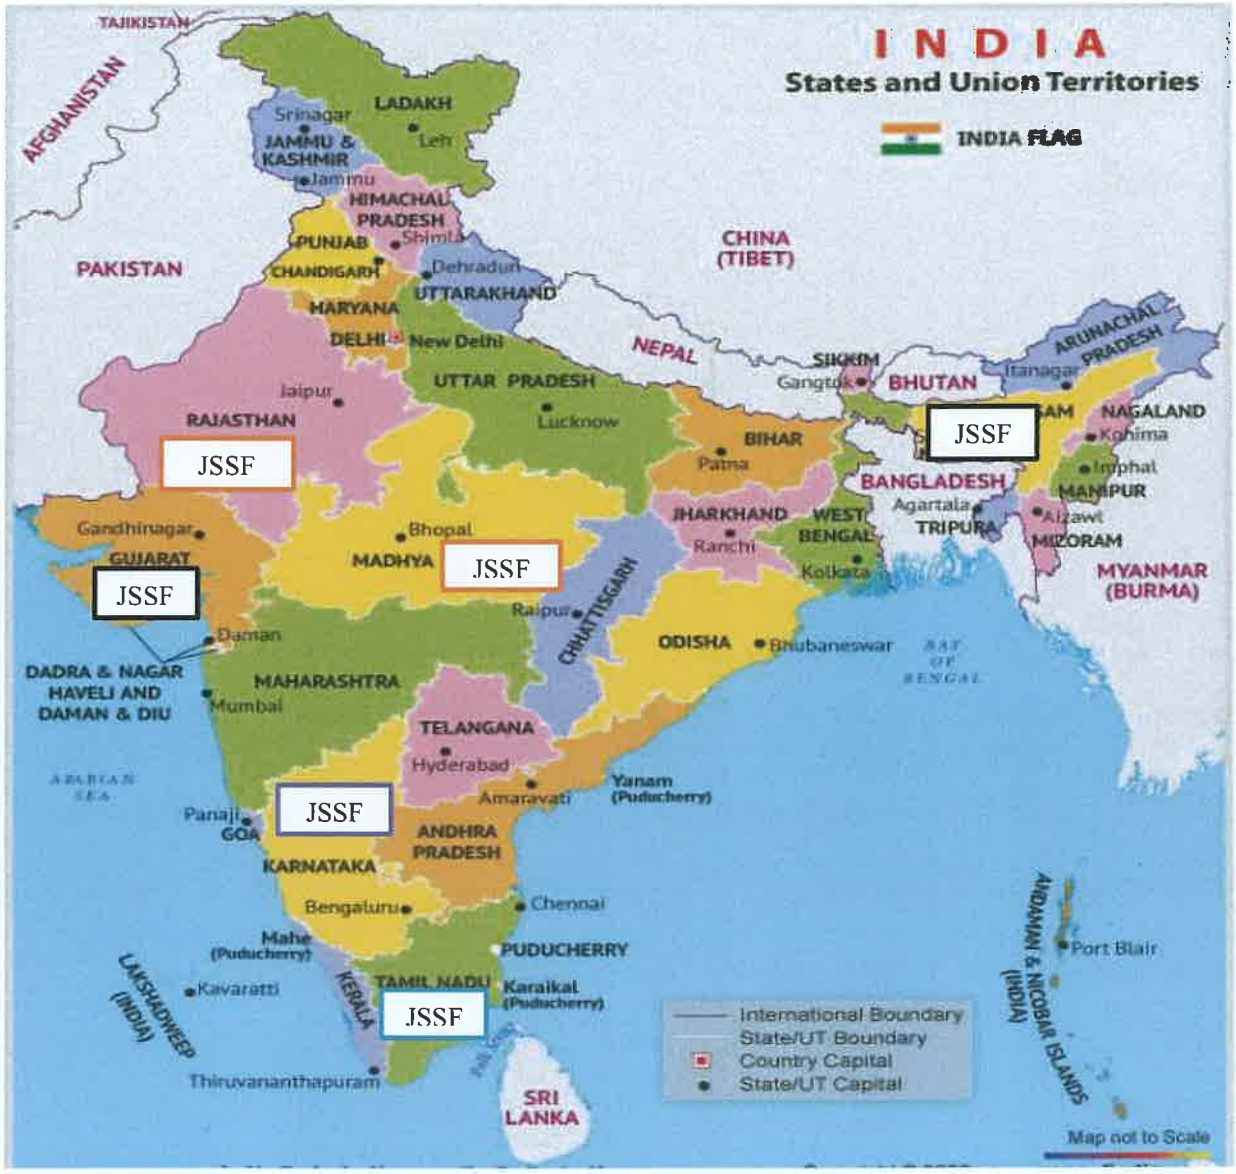

Our Vision

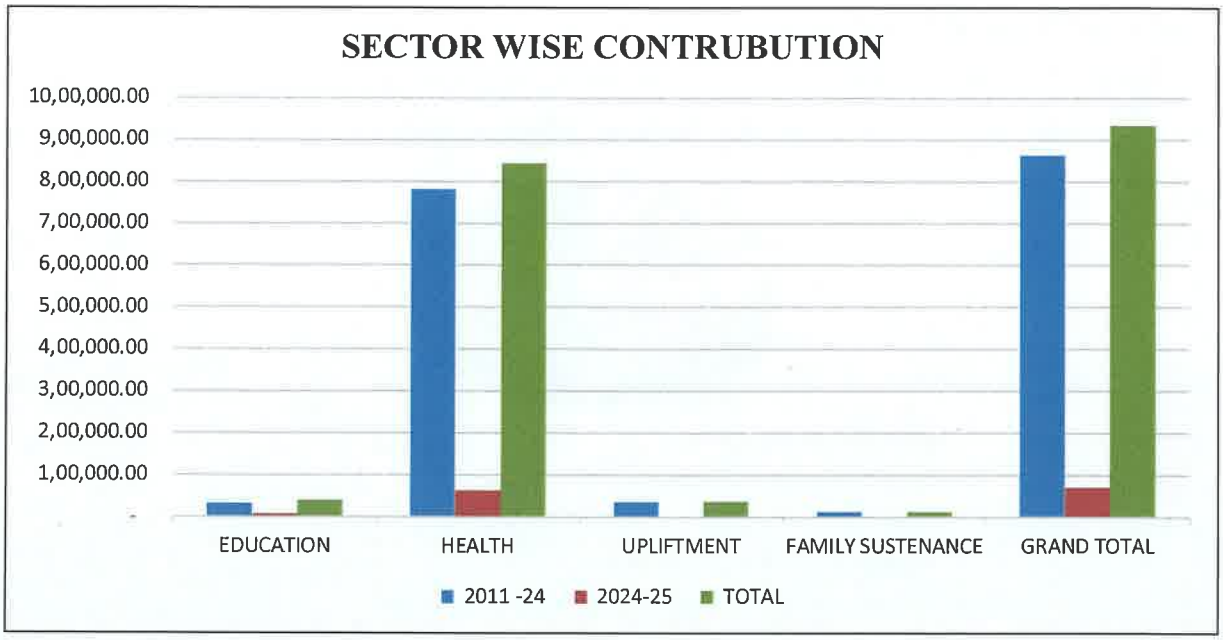

"Our vision is to enlighten the life of an individuals and to make them live with self-respect and dignity by providing them basic Education and amenities"

Our Presence and Reach

We are spread across 6 states and continue to work through our 35 affiliated trusts.

SUCCESS STORIES

VIDYA PRAGATHI PROGRAM AT ANEKAL TALUK - During the academic year 2024–25, Jai Shivshakti Health and Education Foundation supported 22 teachers across 6 Government High school 8 Government Higher primary schools in Anekal Taluk, contributing significantly to the improvement of education quality and student performance. As a result of this sustained effort, Anekal Taluk achieved 2nd place in SSLC exam results at the Bangalore District level. The additional teachers helped bridge the learning gap, provided remedial support, and strengthened core subjects like English, Mathematics, and Science, thereby boosting confidence and academic outcomes among students. This success highlights the Foundation's impactful role in empowering rural education and promoting holistic development of students in government schools.

PRAJNA MATHEMATICS - Shivaneelamma and Yallamma, children from poverty-stricken backgrounds were selected from a government high school in 8th standard. They with tuition and mentoring excelled in studies; with Shivaneelamma scored 95% in 2nd PUC while Yallamma, scored 90% in 2nd PUC, and both pursuing B. Com with CA have the RC college. Both are now working part time as Tutors at Prajna Mathematics.

These girls, once confined by economic hardship and societal expectations, are now role models in their communities. Their journeys prove that with education, mentorship, and relentless effort, even the most underprivileged can rewrite their destinies.

Empowering Youth Through Skill Development Training.

Through the skill development initiative, a total of **510 students** from underprivileged families were trained in **Tailoring, Computer Applications, and Python Programming**. These students, who hold degrees like **BA, BSc, and B. Com**, but were unemployed despite their graduation, were given the opportunity to gain industry-relevant skills that enhanced their employability.

Out of the 510 trained students, **307** have **successfully secured employment** in various roles such as **HR Assistant, Officer, Business Associate, Tele caller, Admin Executive, Mechanical Engineer and Associate Engineer**. Their dedication, combined with the support of the training initiative, has transformed their lives and brought financial stability to their families.

This achievement is a testimony to the power of skill-based education in creating meaningful livelihood opportunities for youth from economically weaker sections. The program continues to be a beacon of hope and a stepping stone towards a brighter future for many more.

PLAN FOR 2025

In the coming year 2025-26, JSSF is looking at facilitating a project by **Sampark Foundation**. The project involves working towards the Education, Health & Safety of Migrant children from 6 months to 12 years. JSSF is planning to adopt 82 children and support the centre in Bellandur Centre.

JSSF and **ASDC** are partnering to Train students in Life Skills Development in the Automotive Sector. Under this program, 120 candidates will receive 3 months of training in Automotive CNC Machining and Automotive Assembly Technician roles. With this training, they have been able to secure jobs, gain financial independence, and build a better livelihood.

Suraksha Career Academy is planning a 4-week training program (8 batches of 15 students each) benefiting a total of 120 students. This would be done in the training focused on Technician, Sales, and Denter job roles in the Automotive sector. This initiative aimed to equip the students with practical skills and industry knowledge, resulting in successful job placements. The program has proven to be highly beneficial for students aspiring to work in the automotive industry, helping them gain confidence, secure employment, and achieve financial stability.

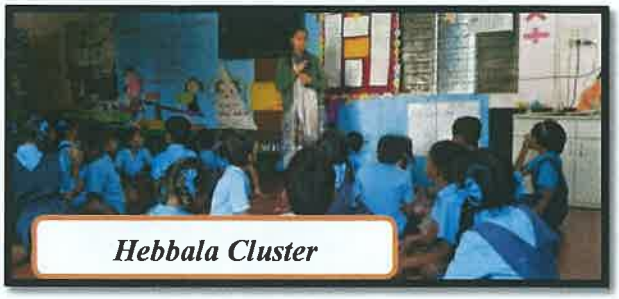

Sense International India is working at the international level with the aim of providing education and support to Deafblind individuals and students. As part of this initiative, a new centre is planned in Kolar Karnataka. This centre with support the education and development of 30 Deafblind students. The centre not only provides academic learning but also focuses on life skills, communication, mobility training, and inclusive development, helping students lead more independent and dignified lives.

Taking a step forward, JSSF has extended its intervention to several government high schools including **GHS Hebbala, GHS Narayanapura, and GHS Bijjawara**, among others. This year, the Foundation has also introduced a scholarship program aimed at supporting SSLC students who have scored more than 60% marks. The objective is to provide financial assistance for their higher education and to ensure that no deserving student discontinues their education due to financial constraints. This initiative reflects JSSF's strong commitment to empowering rural students
